Monitoring the European Open Science Cloud (EOSC)

The EOSC Open Science Observatory offers a all-inclusive platform where you can access, explore, visualize and download comprehensive data on the advancement of Open Science (OS) across Europe.

Explore

**Open Science by Area**

Search data on Open Access publications, Open software, infrastructure, training, and more.

**Open Science by Country**

Compare OS initiatives across Europe, country by country.

**Open Science Trends**

Track the latest patterns and shifts in OS across Europe.

**Investments in EOSC**

With lots of unique blocks, you can easily build a page without coding. Build your next landing page.

**Open Science Monitoring**

Access data on national monitoring initiatives of EOSC and OS.

**Open Science Use Cases**

Discover practical OS use cases from various disciplines.

WELCOME TO THE SURVEY TOOL OF THE EOSC OPEN SCIENCE OBSERVATORY

This survey tool was originally developed within the EOSC Future project and is now further enhanced by the EOSC Track project to support the monitoring activities of the EOSC Steering Board. The tool is used to conduct the Survey on National Contributions to EOSC and Open Science, which collects information from representatives of European Member States and Associated Countries. All current and past surveys, together with submitted responses, will be available to authorised users through this survey tool.
