Monitoring the European Open Science Cloud (EOSC)

The EOSC Open Science Observatory offers a all-inclusive platform where you can access, explore, visualize and download comprehensive data on the advancement of Open Science (OS) across Europe.

Explore

Open Science by Area

Search data on Open Access publications, Open software, infrastructure, training, and more.

Open Science by Country

Compare OS initiatives across Europe, country by country.

Open Science Trends

Track the latest patterns and shifts in OS across Europe.

Investments in EOSC

With lots of unique blocks, you can easily build a page without coding. Build your next landing page.

Open Science Monitoring

Access data on national monitoring initiatives of EOSC and OS.

Open Science Use Cases

Discover practical OS use cases from various disciplines.

You will be redirected to the OpenAIRE AAI where you need to login using one of the Identity Providers available.

Sign in to OpenAIRE
