Survey on National Contributions to EOSC and Open Science 2025

This survey is aimed at the EOSC Steering Board whose members are representatives of Member States and Associated Countries in the EOSC Governance. The survey consists of questions for monitoring policies and practices for EOSC and Open Science at national level in Europe. EOSC Steering Board members have the role of 'managers' for their country responses and can assign 'contributors' to help to respond to the questions for their country.

The first 3 options on accessing the survey are:

1. View – This mode does not let you edit answers and is the only mode available when the survey is validated or locked
2. Edit – You can open it in edit mode as many times as you like and submit only parts of the survey every time
3. Validate - Once you are done filling in the survey, you can mark the survey as valid (which locks the survey from being edited) and only the validated surveys are presented in the public EOSC readiness dashboard. You can 'Re-open' the survey if you need, until the survey run period ends

Survey on National Contributions to EOSC 2023

This survey consists of questions for monitoring policies and practices for EOSC and Open Science at national (and/or regional, where applicable) level in Europe. The survey is divided into four sections: Policies; Practices; General; Feedback. The sections on policies and practices are further divided into eight categories that are relevant for EOSC and Open Science: Publications; Data; Software; Services; Infrastructure; Skills/ Training; Assessment; Engagement. The data collected through the survey will be published in the [EOSC Observatory](#) and [EOSC Observatory Zenodo Community](#).

1. Does your country have a national policy on open access to publications?

INSTRUCTIONS

Please reply 'Yes' if there is a national self-standing policy or law in this area or if such policy is included in an overarching national policy or strategy (e.g. a national policy or strategy on Open Science).
Examples of what should NOT be included: policies of specific institutions or groups of institutions (ie not adopted by the national public authority)

GLOSSARY

Policy: Any policies, recommendations, regulations, and laws that are relevant for EOSC and Open Science and that are applicable at national, regional or institutional levels. A policy at national and regional level is applicable to all research performing and funding organisations

Open access: Ensuring that publications are available to read without a fee for the reader (e.g. through green open access as provided by a repository or through gold open access as provided by a publisher)

Publication: Research publications (including articles and books) that are peer-reviewed and have a digital object identifier

☐ Yes

A new functionality that has been added is to be able to clear a radio selection if you clicked on it by mistake.

The screenshot displays the EOSC Open Science Observatory survey interface. At the top, the logo and name 'EOSC OPEN SCIENCE OBSERVATORY' are on the left, and navigation links 'About', 'Explore', 'Country pages', 'Resources', and 'Contact' are in the center. On the right, it shows 'EOSC SB (Greece)' with a user icon 'SM' and a notification badge '1'. Below the navigation bar, there's a 'DOWNLOAD AS PDF' button. The main content area is divided into a left sidebar and a central form. The sidebar has a 'Sections' list with 'Publications' selected (indicated by a teal bar and a '3' icon). Other sections include 'Data' (1 icon), 'Software', 'Services', 'Infrastructure', 'Skills/Training', 'Assessment', and 'Engagement'. At the bottom of the sidebar are 'PREVIOUS' and 'NEXT' buttons. The central form contains the question '1. Does your country have a national policy on open access to publications?'. Below the question are 'INSTRUCTIONS' and a 'GLOSSARY' section. The 'GLOSSARY' defines 'Policy', 'Open access', and 'Publication'. The question has two radio button options: 'Yes' (selected) and 'No'. A red circle highlights a 'Clear selection' link next to the 'Yes' option. Below the main question, there's a sub-question '1.1. Is this policy mandatory?' with its own 'GLOSSARY' and radio button options 'Yes' and 'No' (selected). A 'Clear selection' link is also present next to the 'No' option. At the bottom right of the form, there's a 'SAVE' button and a 'UP' arrow icon.
